Me es grato comunicar a Vds el resultado satisfactorio del nuevo examen quimico del 'Fluido Little' que acabo de practicar sobre una muestra de este especifico enviada por Vds a este laboratorio el 12 del corr. y fabricado por Morris Little e Hijo en Inglaterra.
Confrontando el analisis de esta muestra con mi analisis del mismo especifico practicado en Febrero de 1879 encuentro un aumento considerable en su grado de concentracion; su densidad es superior, la proporcion de fenoles contenidos en los aceites es mayor, y en una palabra lo considero no solo superior al producto primitivo, sino el mas concentrado y activo de cuantos de su clase he tenido ocasion de examinar hasta la fecha. Esta observacion se refiere, se entiende, esclusivamente a los especificos contra la sarna, que tienen por base los accites Hidro carburados y fenoles del alquitran y que no deben su eficacia al arsenico, al azufre, o al tabaco, sustancias que no existen en el 'Fluido Little.' Apesar de su mayor concentracion el Fluido se mezcla con el agua fria con la misma facilidad y perfeccion como antes.
Me rapito de Vds

The only one recommended by Physician because of its strengthening and very nutritious qualities.
The results of its use in cases of debility induced by accidental causes are marvellous. SCIENTIFIC DEVELOPMENT.

Very few people seem to be aware of the incredible scientific development in the Argentine Republic, thanks to the efforts of men like Drs. Burmeister, Gould and many others whose reputations are widely known in the Parnassus of modern science. Whilst perusing the 500 pages of the Educational Report, one is astonished at the progress all over the Republic in the intellectual spheres. Here in Buenos Ayres, restless in the daily pursuits of life, we do not note the reaction: but up in Cordoba, that indolent city of Fakirs, where everything is stationary, scientific discoveries, intellect and experiments are speedily bringing the province to the front in the studies of the great astronomers, botanists, zoologists and mathematicians of Europe. Science is cosmopolitan and is welcomed everywhere, and it would appear that the prosperity of the Argentine Republic is not marching apace with its intellectual development.

The President of the National Academy of Sciences in Cordova, the talented Dr H Weyenbergh, gives a most flattering and satisfactory account of the work done during the year 1879; and verily one is taken aback when reading the different works written by the members of the Academy. The learned Dr. states that during his travels in Europe through Paris, Brussels, Amsterdam, London, etc. he remarked that the scientific world at large was greatly interested in our efforts and our works.

The following are the publications made by the members of the Academy—

By Dr L Brakebusch—The Artesian wells in Catamarca, Museum of Mineralogy.

By Dr F Schickendantz—Metallurgical Studies. A New Sulphate. The Pinta Metal. Berberis Flexuosa.

By Dr A Doering—The Moluscs of the Argentine Republic.

By Dr D. S. Echegaray—La Hipomania.

By Dr P C T Snellen—New Family of Noctuelites. New species of Agrotis.

By Dr D A Krempelhuber—Lichanes collecti in Republica Argentina a professoribus Lorentz et Hieronymus.

By Dr D H Weyenberg—Description d'une piece gigantesque Pulex Grossiventris. Caso de struma Aystica del Timo, observed in Gervus Rufus. Descripcion de nuevos Gusanos. Nuevos Choncacos de la familia Gnathelellia, Owing to scarcity of funds only these few works were published, and Dr Weyenbergh has the following ready for the press—One article by S Hieronymus, and two by Sr Coni on actas. Prodomus Floral Argentinal containing all the publications of the late lamented Dr Griesebach of Göttingen, and a member of the Academy.

Geology and Paneontology of the country by Dr Stelzner

Rio Negro Expedition by Drs. Lorentz and Doering.

Compendio de Minerologia by Dr Brockebusch.

Texto de Zoologia by Dr Weyenberg, of which two volumes have already been published.

Poligonometry by Dr Latziua.

Histologia by Dr Weyenberg.

The Passage of Venus, an article by Dr Latzina; and many others of the greatest interest.

Dr Wyenberg properly states that the Uranometria Argentina published in 1878 is a colossal work, immortalizing the author, Dr Gould, and the Cordoba Observatory.

Dr Grieselbach, Goettingen, wrote before he died 'Symbolae ad floram Argentinam,' his last work and one of his best, it appears. Dr Burmeister is still writing his Descripcion Fisica de la Republica Argentina.

There are over 50 more different articles and works, the enumeration of which would be altogether too long for our columns.

The above items only show how we are advancing in the intellectual branches, and the names of the above gentlemen should be written in gold in the future Argentine Pantheon of talent and genius. Every work they publish is an ornament and a monument to the fair country they live in and they claim as their adopted Fatherland. In another article we will dwell on the Cordoba Observatory and the National Colleges of the Provinces, on the different libraries and the museums, all of which corroborate what Mr Hippean says in his late work—that few countries show such a rapid intellectual development as the Argentine Republic.

THE GREAT LAND AUCTION.

The auction to-morrow, at Bullrich's, of the famous Venado Tuerto Estancia is an event of some importance to this market, and very suggestive of the rapid strides of this country. But a year ago, with all our River Plate experience, no one ever heard of this place, which for the last few months has been the talk of the whole town. To add to the importance of the auction, and to increase the notoriety of these lands, the Government of Cordova has thought proper to protest against the sale, which shows the value it attaches to lands that a few years ago were in the hands of the Indians. But the sellers of these lands, the men who sign the title-deeds of sale, will, by a large majority of the bidders, be considered a surer mark and a far better guarantee than the signatures of every member of the Cordovese Government, and hence Messrs. Casey and Gilmour have wisely decided not to postpone the sale. Yesterday we saw the decree of the Cordovese Government just issued, naming its lawyer to represent it in this city, and giving to that lawyer full power to arrange and make terms with a party who has just sued the Cordova Government in the Federal Court for damages caused by a similar question of title regarding the lands in Lincoln. We mention this matter to show intending buyers the real position of the Cordovese Government, and to recommend them not to miss attending the sale through this action of the Cordovese Government, whose real line of limits runs with the Arroyo de Tortugas, which does not come within leagues of the line of the Venado camps.

The great drought, the constant increase of our stock, the ceaseless demand of agricultural farmers for the lands in the inside partidos, all remind us that in a few years from now the Venado Tuerto camps will be as thickly studded with sheep and cattle as the Pavon camps are to-day. It may not be generally known, but we assert it without fear of contradiction, the wool clip of this year is now turning out so much over that of last year that, according to the lowest estimate, the increase is fully thirty-five thousand bales.

The Venado Tuerto lands possess the immense advantage over other outside camps of having for the last fifty years been stocked, at times by the Indians, and later still by the Santa Fe 'caballadas,' hence it is that the pasturage on these splendid camps is so far superior to the surrounding camps; and when stopping at the puesto of Miguel Whesler, on the edge of the land, we noticed how very fat his sheep were. The capataz assured us that if he had 20,000 more sheep he could feed them on his own land, so rich and soft are the grasses of the 'cañadas; and he also informed us that on the Armstrong land, which runs up for about 20 leagues alongside the Venado Tuerto, sheep and cattle had been put on the land and had done remarkably well, since out there they never have had a scarcity of grass through drought, and year after year the native estancieros in time of 'epidemia' have sent their cattle to the Venado Tuerto and invariably saved and fattened them.

The injury which these Provincial Governments cause to the farming interests of the country by their interminable squabbles about their dividing lines has attracted attention in the proper quarter, and we learn that at the approaching session of Congress the question of limits between Santa Fe, Cordova and Buenos Aires will be once and for ever settled; that no matter what the adjudication of lines and territory may be it will in nothing affect the actual settlers, or 'bona fide' purchasers, whose rights are sacred, and will be respected by Congress and protected by the Federal Court and National Government.

Can be used with COLD WATER. Sole Agents MOORE & TUDOR, Maypu 95 and 127. Beware of imitations and falsification

We cannot conceivo, therefore, that the protest of the Cordovese Government will much affect the sale of these splendid lands, which lie within about 65 leagues of this city, and will be within such easy reach of town when the Western Railwayis opened next year to Pergamino. Buyers of these lands may safely count that, in the ordinary run of affairs, the price of the Rojas lands to-day, say $450,000 m|c a league, will be the price of the Venado Tuerto lands before two years are about. Parties wishing to attend the sale will remember that admission is by ticket.

The Cosmos entered yesterday morning crowded with passengers, amongst whom were the two new nuns for the Irish Convent in Calle Rio Bamba. Madame Catharine Schmitz from the Rhine, and Madame Eugenie Pokorny from Austria, who arrived from Parisin the Pacific steamer, and had to undergo six days' quarantine at the Island of Flores, where they received the kindest and best attention. Mr. E. T. Mulhall, with his daughter, welcomed these ladies to the Plate, and brought them on shore in the Port Captain's 'falua,' which was kindly placed at his disposal. We are happy to say that the high class school of the Sisters of the Sacre Cœur is now meeting with the greatest support, and has risen from 12 pupils last year to 52 pupils now. The summer vacation has terminated, and the young ladies entered yesterday. Madame Fitzgerald, the Mother Superior, spares no pains to secure for the school here the same high tone which it deservedly maintains in Europe and elsewhere. She has just received for the school two beautiful pianos from Europe, and soon we believe the present convent premises will have to be devoted solely to an Orphanage, and the Sisters will have to look for larger premises. It may interest a few of our readers to know that besides the high class school for young ladies, the Sisters maintain an Orphanage where there are now over 40 orphans, tender little children, that find a good and happy home in this saving Institution; moreover, these good nuns have a day school for poor children, where 140 are taught daily for nothing. The Irish Convent in Calle Rio Bamba is, perhaps, the most creditable institution that the Irishmen of the Plate can point to, and they have just reason to be proud of it. The Sisters who arrived yesterday speak much of the kind attention they received during the voyage from an English lady fellow. passenger!

In reference to our remarks yesterday respecting the closing of the mails for the Pliny at noon on Tuesday, we wish to make the 'amende' to Mr Hansen of the General Post Office, who, the moment he heard of the mistake, ordered a supplementary bag to be kept open till 1 o'clock. The party who gave us the information was not aware of this, as he returned to his office with his letters.

We feel much pleasure in welcoming the Rev. James W Fleming back after his trip to the Sierras of Tandil, with which he was charmed. His numerous friends will be happy to learn that his health has been much improved by the trip.

The prolonged drought caused many typographical errors in our issue of yesterday, amongst others 20th for 28th Feb as the date of the Boer telegram (which was a day in advance of Havas) and quite a wrong version of the cricket telegram from Montevideo, which should have run ('not out') so:—'B.A. won by 72 runs; 86 and 151; against 93 and 72. Oxenford, 68 Clarke, 34; Mackinlay, 24; Woodgate 19.

The Boca comparsa 'Union de la Boca' was one of the best during Carnival, and we hope to see it again at the funeral on Sunday. The dress, marron and gold, was very handsome, and Sr Barderi, the bandmaster, deserves great credit for the excellent music of his band, which was far above the usual tootle-tum tootle-tee twang of Carnival efforts in this way.

We have received the several lists of subscriptions to the Belgian Relief Fund, which amount in the aggregate to almost $100,000 m|c. We have only space to-day for one of the lists; the others will follow.

We have received a pressing invitation from our Ayacucho colleague La *Reforma* to go down and have 'un beef' with him, to prove that they grow enough vegetables there to serve with it. Our colleague, in spite of the fact that waggon loads of vegetables go down there every day from Buenos Aires, asserts that the Ayacuchans grow enough of them for their own wants, and that the 'verdura' is pas e l on to other partidos. We fear that our Ayacucho friends are too much given to a beef diet, but are glad to hear that there is now an 'incremento poderoso' going on in agriculture down there.

Our colleague *La Bandera Liberal* has died suddenly, from defective circulation. Its works of fiction about Corrientes were most attractive.

The funeral of the late Father Curran was one of the largest ever seen in Navarro. Not only all the Irish sheepfarmers of the district, but native estancieros and the old Irish ladies attended. The coffin was carried three squares, in spite of the intense heat and dust. All the carriages in the town and all the private ones in the district were engaged on the occasion, and a large assemblage of mourners attended on horseback. At the conclusion of the funeral ceremonies in the chapel, the Rev. Father O'Reilly of Mercedes delivered a funeral oration, in the course of which he said that, as Father Curran had been so highly esteemed by the Juez de Paz and Municipality, he hoped they would have his remains removed from the cemetery to the Chapel; in the meantime, Mrs Norris offered her family vault for the remains. Over the grave the doctor of Navarro pronounced a beautiful oration. Father Davis also delivered a splendid panygeric.

As even the Italians in Lima themselves have now protested against the Miraflores and Chorillos massacre humbug, it is to be hoped that the proceeds of her concert last week, which the great harpist, Esmeralda Cervantes, handed over for the imaginary widows and orphans, will be at once given back to her.

No 'agua' yet. At Dolores, Chascomus, and other Southern parts it rained a little on Sunday, and in San Pedro, Carmen de Areco and other Western and Northern districts there was a dust, thunder and rain storm for an hour or so on same day. The *Standard* barometer is at 'Change,' but up to 1 p.m. yesterday it refused to budge one inch towards 'Rain.'

Our readers living on the Rio Salado will be glad to learn that the Provincial Engineers have ordered the Postrera Bridge over that river to be repaired. By all accounts it is badly in want of patching.

We had the pleasure of a visit yesterday from Professor Lewis, of the National College, who has returned from England, we rejoice to say, in perfectly restored health, although he suffered severely while at home. We cordially welcome him back to the Plate.

The news from Peru is brighter. A Government has at last been formed to treat with the Chilians viz:—

Pierola is at Jauja. The Chilian papers publish further captured despatches from Minister Sanchez in Buenos Aires. Two are held back, as containing some 'truly tremendous' revelations. It is to be hoped the Chilians will not be too hard on Peru in the treaty of peace, but the latter must make up its mind for heavy sacrifices of territory, and probably of money also.

The youngster who blocked the Lord Mayor's hat (by mistake) during Carnival is still in prison. He made a gallant attempt to run for it after the offence, but his Lordship held on to his coat tails and secured him.

LAND GRANTS.

Club de Residentes Estrangeros,
Buenos Aires, March 2.

To the Editor of the *Standard*.

Dear Sir,

I find an article last night in your evening colleague objecting to the gift of land lately made by Chambers to General Roca. It says, no doubt, the General deserves well of the country, but that land is not the proper thing to give. It is a highly improper thing to give to any one. May I be permitted to remark that this is all nonsense, since the time of Moses in Egypt it has always been considered quite the wisest thing. What more natural and graceful gift to a meritorious soldier, of the leagues which he has added to the country to return him a few acres? The soldiers who returned from Paraguay all had a bit of land given them at Lincoln, and only a man with his head too full of learning to have room for half an ounce of poetry, could possibly object to the proceeding.

I shall be pleased if you are able to find room for this note, because, though a foreigner, I consider what General Roca did in extending the frontier to the Rio Negro was a benefit not to Argentines only but to humanity and civilization at large, and I therefore trust it is not out of place for a foreigner to utter this little protest. By all means let the General take his land, and pay no attention to the learned chatter of a few bilious lawyers, who are making a graceless attempt to jockey him out of what he so richly deserves.

Yours truly,
Observer.

ON 'CHANGE.

March 3rd, 1881

Patacones..... ..... 29.
Cedulas A 91
National Bank Shares.. 77½

There was a large business done on 'Change to-day; the gold market opened with a stumble, and what with the increased activity in produce, the rise in salted hides, and the loan meeting at the Government House yesterday, the gold market drooped. Respecting the loan all that is publicly known is that the Government has three offers, two from England and one from France. Another Cabinet meeting will be held to-morrow, and it seems beyond question that the Government is at last determined to close the business on the most favorable terms. Messages from London and Paris are expected to-night in reference to this all important affair. Gold for cash held pretty steady at 29, but for the end of the month dropped to 28.85 and closed at 28.90. In the event of the loan being done, it is thought the whole phase of the market will change, and paper money rapidly improve, as also all stocks in the market.

Cedulas rule firmer than ever and are steadily marching to par; price to-day 91.

National Bank Shares are still the most speculative of our stocks and are rapidly falling into hands who will be well able to carry them. None of the stock taken up for the liquidation appears to have been thrown back on the market, and the only default in the liquidation was by a party who thought proper to bear the stock in the face of a rising market and was unable to deliver; the amount, however, we believe was small.

It was rumoured on 'Change that a large purchase of arms was made to-day for account of certain parties in the Banda Oriental.

The 3,000 Podesta salted hides, we hear, were sold at 19 rls., which shows an advance of from 1½ to 2 rls.

The sales at the ring were—
For cash 87,500 at 29.05–29
For March 5th 61,000 29.05–29.–28.95
For March 12th 20,000 29.–28.95

For March 31st 645,000 29.–28.95–85–90
For April 30th 10,000 28.85
For May 31st 50,000 28.90–85–90
Sales, 908,500.

Nat. Bank Shares—

The barraqueros and others who oppose closing the Bolsa at 4 o'clock held a species of meeting at Peter's Cafe to-day. We have not heard the result, but it was rumoured that if sufficient signatures can be had the protesting committee will buy the National Bank building and make thereon a new Bolsa.

At the deposits at the Once two large sales of wool to day, 7,000 ar. E. Rios, Petrero estancia, reserved price, and 5,000 ar. also from deposit estancia Socorro, also at reserved price. Both lots bought by Italian house.

Two sales of hide cargoes announced on 'Change; 9,000 salted hides, Paysandu, 67 lbs, 4¾, also 9,000, Salto, 67 lbs, 48.

Discount brokers report paper very easy at 7 per cent, but gold difficult; people dont care about discounting in gold at present.

Gold at afternours ruled weak, but at 4 p.m. was a shade steadier and closed buyers 28.95 cash, and 28.90 for end of month. Shares ran up to 77½, at which say 200 sold, they then slackened and closed sellers 77¾.

Exchange a large amount of first class German paper on Antwerp at 5.24 for mail Nord America.

Several large sales of novillos in the provinces are reporte', all for saladero.

2,000 novillos from Sabelzas at 400 m/c.
1,000 do, Alvarez at 416 m/c.
3,000 do, Rio Cuarto at 16.50

The Custom House receipts for February [short month] amounted to 1,198,394 pats.

The Pagare Committee received a telegram to-day but although most people knew its import it seems a sin to publish it, however, the news did not amount to much. The latest telegram in the Pats respecting the Liverpool sheepskin auction will be found in another column.

Mr Robt. Lawson, who arrived up from Montevideo, was welcomed on 'Change; he visited the great Jackson & Cibil dock. The crowd of bathers at Pocitos is greater than ever.

Exchange on England at 49½-⅝, at which rates bills passed.

Mr Younger, who has arrived from Azul, was welcomed; his reports camps South of Dorselnar good, but rain wanted, lagunas dry

The Vasconia with a large assorted cargo entered Montevideo to-day.

Plans and statements respecting the Curamalan lands were scattered on 'Change, and many parties have arrived in from the camp to attend the Venado Tuerto auction on Saturday.

Mr Casey sold this morning—
150o ars good wool at 92
400 do regular 82

Mr Moore sold a lot of lamba' wool at the South market, and we heard of the sale of a lot of criollo wool, Bahia Blanca, at 55, and a lot of Concordia wool at 92

Exchange on Rio 11,200 drawers; sovs. in Rio 11,400.

The English barque Maria has been chartered to load a cargo of quebracho wool at Bahia Viata for Buenos Ayres at 4 pats per ton.

Mr J Suffern is canvassing the city for subscriptions to the Bell Telephone. For 5 pats. per month all the houses and papers can be put in communication; and a 'sucursal' or branch was opened to-day in Printing House Square by the same concern. As yet, however, people have to see their way to the telephone conveniences.

The Telephone Gower-Bell has won the prize. The National Government having put the three systems now in the market to the test, have awarded the premium to the "alta voz" of Gower, Captain Mauton having put the President in perfect communication with the Government House, a distance of four miles. The decree giving Capt. Mauton permission to erect a Telephone Centre in Buenos Aires was signed this afternoon by the President and will be published to-morrow. Telephones to be of use must be able to talk long distances like the Gower-Bell.

Mr. Tornquist, who has arrived up from Montevideo, was welcomed on 'Change. Sr. Nonguez, Governor of Tucuman, left to-day for the provinces; during his stay in town the Governor held frequent interviews with highly influential parties on matters connected with the industrial development of his province.

We must compliment Chevalier Borgmann, Consul General of Belgium, on the great success of his subscription list for his inundated countrymen. We hear the subscription reaches close on 150,000 m|c. Charity has no kinder home than the River Plate. 20,000 francs have been remitted already; this will be a pleasant surprise for our Belgian friends at home. We want the Belgian farmers to come out and settle on the Rio Negro.

Dr Romero, Governor of the Province, has held a long interview with President Roca on the subject of the Provincial Debt. We understand that President Roca asked for this interview owing to the great complaints made about the non-payment of the coupons of the Municipal Bonds; the amount of this debt is so trifling that it is much to be regretted the credit of the country is to be jeopardized for the non-payment of so trifling an amount.

The Congo and Maskelyne mails bring advices of importance; we extract from the papers the following:—

"The Elbeuf woollen industries are still quiet, according to the *Jacquard* of that place, and many operatives are unemployed. Important quantities of goods are, however, being despatched, but the prices obtained are unsatisfactory. No improvement is reported from Sedan. It is noteworthy, however, that the weight of goods sent thence during last year was slightly greater than in any year since 1876, and in fact exceeded the average of the preceding six years. At Vienne (Isere) the production of summer goods is being terminated. The sale of the fabrics has been steady, and has kept pace with the out-turn. Manufacturers are beginning to prepare their winter patterns, and expect success from the beautiful variety and low prices of the new goods which they are succeeding in producing. Considerable disturbance has been caused amongst the industrial population of Lodeve by the destruction by fire of the mills of M J Lagare, manufacturer of army cloths. The loss is estimated at £40,000. There are prospects of an improvement in the French combed wool spinning and weaving industries. At Fourmies business in combed wool goods is brisk.

"Argentine Hard Dollars—All bondholders having inscribed their Bonds before the 21st of Nov. can present themselves at the Argentine Legation, 15a, Clifford-street, Bond-street, in order to receive the New Bonds, with coupon sheets from the 10th to the 28th inst., every week day from 12 to 3, Saturdays excepted.

"The January coupons will be payible in Buenos Aires the moment the bondholders will present them.

"Notice will be given on due time to the bondholders who presented themselves to inscribe their Bonds after the delay fixed by the Legation.—Jan. 6th, 1881.

"River Plate—London to Montevideo, to load on the forth 25s, Buenos Aires 26s on d.w. Wales to Montevideo, 23s larg, and 24s, with option of B. Aires at 26s; Rosario direct, 30s; Fray Bentos 28s. Tyne to Montevideo, 24s; B. Airbs, 26s.

"Activity in the Shipbuilding Yards.—Both on the Mersey and the Clyde the shipbuilders are experiencing a briskness they have not for a long time enjoyed. They have not only their hands full of work at present, but the orders they have will take them in many cases some two or three years to complete. The most conclusive indication of this briskness is afforded by the fact that a Liverpool firm which had sent out to most of the well-known shipbuilders for tenders for the construction of a couple of steamers received replies from several of the firms, both in Liverpool and Glasgow, stating that owing to the great quantities of work they had then on hand they were unable to tender as requested."

The Lucerne's mails were delivered to-day and we are much indebted to the Captain for late Have, Rouen and Paris papers; her dates from London were anticipated. We extract the following:—

"It will be interesting to South Americans to learn that the steamer Protos has arrived in London from Melbourne with a quantity of fresh beef and mutton, frozen under the dry-air process. The meat has arrived in splendid condition, and is now being offered for sale by Messrs Ward & Stimpson, of the Metropolitan Meat Market. There is also a quantity of butter on board, but this has not yet been discharged.

"We are informed that in consequence of the partnership hitherto existing between Mr Joseph Pini, Mr John Roncoroni, Mr Angelo Roncoroni, Mr Joseph Roncoroni, and Mr L Bonacina having expired through effluxion of time, and the deaths of Mr Joseph Pini and Mr Angelo Roncoroni, that the London business will be carried on as heretofore by the remaining partners and Mr John Pini—who is admitted as partner in lieu of his father—under the style of "Pini, Roncoroni & Bonacina". The B. Aires house, constituted of the same partners as the London firm, together with Mr Lui Luraschi, will continue business under the old style as hitherto.

"It is notified that all holders of Argentine Hard Dollar Bonds having inscribed their Bonds before Nov. 21st can present themselves at the Argentine Legation, London, in order to receive the new Bonds, with coupon sheets, from January 10th to the 28th. The January coupons will be payable in B. Aires the moment the bondholders present them.

"A circular has been addressed to the shareholders of the Mercantile Bank of the River Plate (Limited), in which the Directors state that, having failed—in consequence of the recent revolution in the Argentine Republic and from other causes—in obtaining the requisite support for the establishment of a new bank, they consider the time has now come when the best step to be taken is to place the bank in voluntary liquidation. A meeting is accordingly convened for to-day (Jan. 24th) to pass the necessary resolution."

The following late news about the Antwerp produce market, from Messrs Bunge & Co. of that city, under date January 27th, 1881, is important:—

Sheepskins—
The demand continues quite slow and prices remain unchanged.
Sales only 20 bales.
Stock, 954 bales.
Hides—
The market is tolerably active and would perhaps be still more so, but for the bad weather and the difficulty of moving stocks. Prices for all hides of prime quality are about steady, but old or secondary are held with little firmness, and for large quantities a reduction of prices would no doubt be obtainable.
Tallow—
We have to report an active demand, and with small stocks prices have advanced. After a sale of beef at frs 87 having been effected, frs.88½ has been vainly offered, and owners now ask as much as frs.90. Mutton frs.87 nominal.
Sales 129 pipes and 385 hogsheads beef.
Stock 11 pipones, 1,195 pipes, 367 hogsheads beef, and 112 pipes, 61 hogsheads mutton.
Hidecuttings—
The market has continued dull at unchanged rat s.
Sales, 66 bales, 23 bags.
Stock, 326 bales.
Hair—
Is offered freely, but buyers are difficult to find.
Only a small sale has taken place at about old rates.
Stock, 675 bales, 91 bags.
Horns and Piths—
In fair request; sales amount to 203,951 horns, leaving us without stock.

Will be found really cheaper than lower priced articles, as to all intents and purposes it is indestructible, and requires no parts to be renewed from time to time. Very little powder is used; its cleanliness, thorough practicability, the beauty of polish it imparts, and the impossibility to injure cutlery cleaned in it, invariably make it popular wherever it becomes known.

El Sabado 5 de Marzo
A las 2 p.m.

Remataremos a la mas alta postura y sin limites de ninguna clase, los nombrados campos, conocidos por el Venado Tuerto, situados sobre la frontera de Buenos Aires y Santa Fe, distando nada mas que 60 leguas de la Capital 15 leguas de Rojas, 6 de la Teodelina (de Alvear), 15 del Pergamino y 20 del Rosario.

Dista de las Estancias de los Sres. Gahan, Casey, Brown, Ham, Morgan y otros como 6 a 7 leguas.

Dichas estancias han costado casi todas de $36o,ooo, a $5oo,ooo la legua, y se garante que sus pastos no son mejores que los campos que se venden.

El ramal del Ferro Carril del Oeste que va al Pergamino y estara concluido en 15 meses cuando mas, pondra estos campos a un dia de viaje de Buenos Aires.

Estos campos son verdaderamente espleandidos y han sido visitados hace muy poco tiempo por un numero de hacendados y personas inteligentes que los reputan de primera calidad.

Hay muchas personas que creen que los campos virgenes o de pastos fuerte son de la misma calidad; es un gran error que ha costado mucho dinero a algunos pobladores.

Los campos al Sur de Venado Tuerto que lo forman los partidos de Lincoln, 9 de Julio, etc, son mas o menos arenosos llenos de medanos y nunca seran campos de primera calidad. Los al Norte no son arenosos pero en campio muy duros y casi imposible de refinar, mientras que los campos que ofrecen en venta son de tierra negra, pastos inmejorables con grandes cañadones, hermosas lagunas y lomadas, seis medanos.

Son campos que admiten 2000 vacas y dos majadas de ovejas por cada legua cuadrada y no son unicamente para cria de vacas, sino tambien para engorde.

Como tenemos orden terminante de vender todo el campo sin reserva alguna y siendo muy probable que por ser una area tan grande no se consiga la mitad del valor de estos campos, queremos llamar muy especialmente la atencion de los senores hacendados sobre su importancia.

Podemos asegurar desde ya, que la mayor parte de los compradores seran estancieros irlandeses y es sabido de todos que donde van esos peoneers de la ganaderia, los campos pronto dublican su valor.

Prueba de ello son los campos del Norte y Oeste de esta provincia, donde han pagado de 1½ a 2 millones por legua y todo el mundo decia que eran locuras; mientras tanto quienes son los hombres de fortuna en el pass?

Tenemos la firme conviccion que una vez que esten poblados estos campos y una parte alambrados, que lo sera antes de seis meses, no se podra comprar alli una legua por menos de 4oo,ooo m|c.

Las condiciones de la venta son:
60,000 al contado y el resto a 1, 2 y 3 anos de plazo con interes del Banco de la Provincia o con diez por ciento de descuento haciendo el pago al contado.

Se vendera en lotes de una legua con opcion a mas, al gusto de los compradores.

Los planos estaran a disposicion de los interesados, deste el 12 del corriente en nuestra casa Alsina no. 78.

NOTA IMPORTANTE—La venta se efectuara aqui en nuestra casa Alsina 78, despues de un esplendido lunch que ofreceremos a nuestros favorecedores y al efecto deberan munirse de la correspondiente tarjeta de admision, sin la cual no podra tener acceso al local del remate. Siendo limitado el numero de tarjetas [100] pedimos acudan con tiempo por ellas.

Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)

CHLORODYNE

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.
CHLORODYNE effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.
CHLORODYNE acts like a charm in Diarrhœa, and is the only specific Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.
CHLORODYNE the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. *See Lancet*, Dec. 31st, 1864.

From A. Montgomery, Esq. late Inspector of Hospitals, Bombay. "Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed.

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collin Browne's Chlorodyne was administered, the patient recovered.

Extract from the General Board of Health, London, as to its efficacy in Cholera. "So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases.

See leading article, *Pharmaceutical Journal*, August 1st, 1860, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

The Maskelyne's Mails.

London, February 5.

The following extract from a letter from Southwold, giving some account of Tuesday's storm and the wreck there, has been sent to us for publication:—

"Southwold, Jan. 19.

"We have had awful weather here. Monday night was perfectly terrific, the wind and sea higher than have been known for 20 years. I was very anxious about the children. It was impossible to sleep, and one heard one shock after another till I quite felt that we might not see the morning. The drawing-room chimney fell just over our bed, making a hole in the roof that a man could climb through, and C. says there are six other holes. The slates went away in sheets, and I cannot understand how it was that the windows did not blow in, or the hall door. We had breakfast, the wind getting higher and higher, slates flying through the skylight &c., and at 11.30 F. came to say that there would be a wreck. Ben came to tell me that a two-masted vessel (575 tons) had lost all her sails and must soon be ashore. She was flying a distress flag, but there was no power of helping her. I asked him if they had signalled to say they could not help, but he said 'No,' so I said they ought to do that, as the men's only chance was to come ashore as soon as they could get the vessel round. They signalled and she changed her course and came in towards land. The two girls and I went out, though we could hardly keep our feet, and crawled towards the Preventive Service. I left word to get plenty of hot water and hot blankets ready, though Ben said it would be no use, for no one could live in the cold water for five minutes. The vessel came in looking so beautiful, though all the sails were in ribands, and we could see men in the rigging. She came on as far as the Caneway, when she struck with her head straight for shore. We got among the huts and watched her for an hour. First the mainmast went, carrying some men, and then the foremast, and then, seeing the man I had watched all the while in the rigging gone, and fearing lest the poor fellows would be washed up dead and the children would see them, I came home to find the drawing-room window and shutters blown in. F. screwed them up while C. and I held them, when we saw a great crowd coming and rushed to the front door, which we were a good while opening, because the marble table was before it, Captain P smashed a window, thinking to draw the bolt, but we got it open and were rejoiced to see they were bringing a body in. I took them to A.'s room, and he was stripped and wrapped in my fur cloak, and then put in hot blankets, while we got tea and hot water bottles. He was a fine big fellow and turned out to be an Orkney man, master of the ship, a collier from Shields to Minorca. He was a good deal cut and bruised, and his face looked frost-bitten, but we bathed it with tepid water, and after about three hours he got warm. There were two other men saved—a Swede and a Dane. The Dane is a young fellow about 19, and though he has quite recovered from his ducking in one way, he has so much congestion of the lungs that I doubt whether he will live. They thought he was quite dead, and it was a long time before he began to breathe. Jonas Herrington got struck with a plank in going in after him, but he is not seriously hurt. The poor fellow was washed through the breakwater by Ben's boat, and how he escaped being smashed to pieces is a marvel. It was a most awful sight, the sea was so tremendous, and every wave broke over the mizenmast, where at first seven poor men were clinging. Three out of 12 were saved, and I hear that there have been three wrecks since and not a soul saved. This was a Nova Scotia built ship, 17 years old, and very heavy laden, and full of water, too. They say she was so full that they had no food, for the cabins were swamped. She answered the rudder well, but the draught was so great (17 ft. 9 in.) that she could not get over the Caneway into the deeper water this side.

"F. says there was not a dry eye on the beach. They fired six rockets, and one rope went over the mizen and caught, but the men were so numbed that they could not keep it. The man we had watched in the rigging, who had seemed so cool, was the captain, and he told me to-day that he had no hope then any life could be saved. He has a wife and four children, poor man, and has saved nothing. The Dane's chest was washed up, and he has his photographs and clothes. His watch stopped at 12.35. The Caneway is a shoal which lies about 100 yards from the beach in front of Southwold."

The inquiry at Tralee into the charges preferred against the executive of the Tralee Land League was resumed to-day before Mr Bodkin, R.M. (in the chair), Major Rowan, Captain Chute, Mr Bateman, and Mr M'Gillicuddy. The Crown was represented by Mr Morphy, Crown Solicitor, and Mr M'Gillicuddy, S.C.P.; while Mr Broderick, solicitor, defended the seven prisoners, Messrs. Harrington, Brassill, O'Rourke, Kelly, Talbot, Power, and Leahy. Mr Patrick Divane, who had been under examination last evening, was again called. In reply to Mr M'Gillicuddy, he said in the letter he received from somebody signed O'Rourke, no threat was held out to him and no coercive jurisdiction was exercised by any of the members. He did not attend any meeting of the League until the 22nd of December. The League dealt with no cases except those of real hardship, and when they had considered such matters they only expressed their opinion about it. There was no such thing as judicial decision given in the cases. The Land League meetings were purely meetings of friends and neighbours to keep the people in harmony with each other. There were no threats held out, directly or indirectly, of punishment, or pain, or penalty to parties who did not attend before the League. It had not the slightest resemblance to a court. Mr Broderick then read a list of ejectments brought by Lord Kenmare in the Superior Courts for rent up to November last, the sums due not extending beyond that amount over which the County Court Judge had jurisdiction. He asked the witness whether those matters were discussed before the League. Witness replied in the negative, but at the same time thought they were fit subjects for discussion by that body. There were curious things going on in the country at present. He had heard of landlords writing threatening letters to themselves, or getting them written (laughter), and the public said that some landlords even went so far as to get themselves fired at from behind a hedge. (Renewed laughter.) To the Chairman. I might have said the public would not think well of me if I did not give up the farm—and I think rightly, too, because I would not think well of any one who would not do what the Land League recommend. John O'Connor, who had been an apprentice in Mr O'Rourke's [the secretary's) grocery establishment for some years, was next called to prove Mr O'Rourke's handwriting. A letter was shown him (the one addressed to Mr Hilliard), but witness could not swear it was Mr O'Rourke's handwriting. The Crown Solicitor asked the witness whether when coming up to give evidence he did not wink at one of the prisoners. The witness said he did not, and was surprised at the question being put. Captain Chute (a magistrate), said he saw the witness do so, and he was prepared to swear it. Mr Broderick objected to Captain Chute sitting on the Bench as a Judge and then becoming a witness and an accuser. He asked the Captain to come up on the witness table to be examined, but Captain Chute declined. Subsequently, however, he said he had no objection to be examined at any stage of the case, and Mr Broderick said he would avail himself of the opportunity before the case closed. The conduct of Captain Chute, he added, would be brought under the notice of the Government before 24 hours. The Court adjourned.

The highest reading at the Royal Humane Society's Receiving-house, Hyde-park, during Saturday night was 29deg. By 9 o'clock yesterday morning it had risen to 33deg., and at certain periods during the day continued to increase. At 8 o'clock last night—wind moderate, north-west—the mercury stood at 32deg. During the day upwards of 100,000 persons went on the ice. The official reports sent in last night gave the following returns:—Serpentine 30,000; Long Water, 15,000; Round Pond, 17,000, Finsbury-park, 10,000; Regent's-park, 17,000; St. James's-park, 12,000; Battersea-park, 10,000; and Clapham-common, 3,000. A large number of accidents of the usual character were reported; and in the Regent's-park eight persons broke through the ice and were rescued.

At St. Thomas's Hospital several persons suffering from fractured bones and dislocations and many who had received more or less severe cuts and bruises from falls in the streets were admitted on Saturday and yesterday.

The River Thames at Greenwich yesterday and on Saturday presented an appearance unlike anything seen there for at least 20 years. All that could be seen on the water was floating icebergs, many of which, nearly as large as a six-roomed cottage, were deposited on the beach opposite the Royal Naval College. On Saturday afternoon a dense fog hung over the river and there could just be seen in the centre of the stream the dim outline of an outward-bound iron steamer, from which sounded incessantly the warning of the foghorn. Opposite the college was the wreck of a sunken barge, above which hung the Thames Conservancy's green flag. From the Trafalgar Tavern stairs looking down the river one vast field of icebergs left by the tide met the view as far as the eye could reach, and the hundreds of watermen's boats which usually lie there had disappeared. Yesterday morning the river frontage was crowded by thousands to witness the unusual spectacle. Notwithstanding the signs of a favourable change in the weather yesterday, there were thousands of sliders and skaters on the Blackheath ponds. There are some ugly snowdrifts in some of the pits on Blackheath, some of them being 14ft. or 15ft. deep. During the 24 hours ending 9 a.m. yesterday the temperature of the air in the shade, as registered at the Royal Observatory, was—highest, 32·1 deg.; lowest, 18·7 deg.

Two agents of the Land League were on the watch yesterday at Ballymote, county Sligo, for the arrival of a landlord, who was expected by train. They had received information from Dublin that he was on his way, and had, it is said, been furnished with a photograph or other likeness of him, so that they might make no mistake. He arrived by the train and was at once placed under surveillance. Finding that he was watched, he allowed the watchers to see that he was well armed, and went straight to the police barracks of Ballymote, where he reported the fact to the sub-inspector. In the meantime the car owners had been warned not to hire a car to him, and when he endeavoured to obtain one he was refused on all sides. He was also hooted and mobbed, and was obliged to remain within doors. Even the driver of Her Majesty's mail from Ballymote had to decline to give him a seat, as he said the road was watched. The Boycotted landlord was on his way to Carracastle, in the county Mayo, to meet the contumacious tenants, and had made an appointment to meet three sheriffs of that county. It is stated that he returned to Dublin.

At the Petty Sessions of Ballinamuck, county Longford, to day, a man named Michael Reilly was charged with attempting to intimidate a priest. Mr Flemyng, Crown Solicitor, stated that the case was one of the most extraordinary that had ever come to his knowledge in connexion with the land agitation. A man named Bernard Hughes, with whom the Rev. F Gray had lodged, had been guilty of the crime of paying his rent. The Rev. gentleman, who had done nothing to forfeit the respect and affection of his people, and who was bound to inculcate principles of honesty and fair dealing, was ordered to at once leave Hughes's house. He refused to do so, and the following notice was then posted on the chapel gate and on an adjoining house on Saturday night—'Men of Ballinamuck.—We give you notice to pay no money to the Rev. F Gray until he leaves Bernard Hughes's home—he paid his rent in full—or we will call to see you. We give no mercy.' Mr Flemyng, after calling attention to the provisions of the Whiteboy Act, brought forward evidenae in support of the statement, and tending to inculpate the prisoner. Mr. O'Shaughnessy, solicitor for the prisoner, called witnesses as to character, but the chairman, Mr J Dillon, R M, said the magistrates felt constrained to send the case for trial. Mr O'Shaughnessy applied for bail, which, however, was refused.

A report from Killarney states that on Friday morning the house of a farmer named Meehan, at Cussane, in the southern part of the county, was attacked about 4 o.clock and 3 shots were fired through a window of a bedroom in which two visitors (girls) were sleeping. One bullet lodged within about 4 inches of their pillows, and this circumstance saved their lives. Many threatening letters and other outrages, such as wrecking of houses, are reported on the property of the Marquis of Ormonde, in this part of the country.

In the Court of Queen's Bench yesterday, Mr MacDermot, Q C, appeared on behalf of Sub-Constable Stephens, of the Royal Irish Constabulary, who was committed to Castlebar Gaol on a coroner's warrant charging him with the manslaughter of a man named Quin, and applied for bail. An affidavit of the sub-constable stated that on the 4th of December last he was one of a force of 103 constabulary and 2 sub-inspectors who, with a resident magistrate, accompanied a process-server named James Henderson to a place called Hollymount, near Castlebar. At a particular part of the road they found a large crowd of 400 persons, armed with sticks and stones, and determined to resist the service of the processes. A trench had been dug across the road, water being admitted into it. A large fire was lighted at one side. In crossing the trench the police were violently assaulted by the crowd, and a number of them were severely beaten and their lives put in danger. Some of the assailants were injured either by the police in self-defence or by the missiles and weapons of their own party, and one of them (Quin) had since died of his wounds. The police behaved with the utmost forbearance, and only did what was necessary to protect themselves. The finding of the jury was practically a verdict of manslaughter against the whole body of police. The defendant was ordered to be released on his own recognizances.

Estancia principal y 13 puestos
Todos edificios de material.

Campos especiales para invernada de animales o cria de ovejas, superficl 1920 cuadras, igual a una legua y un quinto. Tasacion total, campo y poblaciones, $1,920,000 m|c., estraordinariamente baja. Base de venta 2|3 partes—$1,280,000 m|c.

El Martes 15 de Marzo,
A las 4 de la tarde,

Procederemos a vender por orden y cuenta de su dueño, el magnifico establecimiento de campo situado en el partido de Cañuelas, distante solo 1½ legua del referido pueblo y 12 de Buenos Ayres.

El establecimiento es conocido por la 'La Noria' y creemos que es escusado entrar a hablar sobre la calidad de el como campo de pastoreo, pues son de todos conocidos los campos de Canuelas.

Las poblaciones de estancia la constituyen la principal denominada 'La Noria, que tiene un edificio de material de 5 piezas, otra para cocinera, otra para peones, una gran noria con una colosal bebida de material, la cual puede abastecer de agua a 4000 cabezas de ganado vacuno, ademas hay 13 puestos de material todos techos de teja Francesa y en perfectisimo estado.

El campo esta actualmente arrendado a arrendatarios que hace anos estan alli, los cuales pagan por puesto $12,000 anuales adelantados, y por la Noria $11 000 que vieno a dar un arriendo de $170,000, pero como estos son adelantados y hay que calcular el interes respectivo resulta que estos se hacen $190,000, o sea el interes de mas de 1½ p ⅀ mensual sobre la base de venta fijada. No hay pues, ni puede ofrecerse, oportunidad mejor para emplear un fuerte capital.

El arriendo que antecede es sin duda una buena informacion sobre la calidad de campo que se ofroce en venta, pues de suponer que solo por campo superior como este se obtienen tan buenos arriendo.

La tasacion practicada sube a $1000 m|c cuadra cuadrada, incluyendo poblaciones, tasacion infima, con relacion al valor que tiene en todo el partido y la base de venta son las 2|3 partes, es decir 633 pesos por cuadra de 150 x 150 vs. La venta se hara a razon de tanto la cuadra.

La figura de este campo es la de un cuadrilongo perfecto, y los interesados pueden enviar por planos a nuestra casa.

CONDICIONES DE PAGO.

Siendo este negocio de alguna consideracion y pudiendo quiza ser para algunos un inconveniente no disponer por el momento de la cantidad necesaria, prevenimos que entregando una pequeña parte al contado, por el saldo se daran al comprador comodos y largos plazos.

POR
A Bullrich y Ca,
Preparense los Señores hacendados
Para el Gran Remate especial
DE
ANIMALES FINOS
De las razas, vacuno, caballar y lanar
Del gran Establecimiento
BLANDENGUES
Partido de Chascomus
Sobre la via ferrea del Sud
TREN ESPRESO IDA Y VUELTA
Que tendra lugar los dias 25, 26 y 27 de Marzo.

Habiendo vendido el magnifico y valioso establecimiento conocido por Blandengues, al Sr D Benito Lando y no habiendo entrado en esa venta los ganados finos de todas las especies, el propietario nos ha autorizado para proceder a su realizacion en remate publico, en lotes pequeños al gusto de los compradores.

Como las haciendas de que se trata son casi en su mayor parte finas y cuya vena a desaparecer mas tiempo necesitandose como es consiguiente mas de un dia de remate, y en el deseo de que los señores que quieran asistir a el, puedan hacerlo con toda comodidad, hemos creido conveniente fijar la gran feria para tres dias, y en oportunidad anunciaremos el dia y hora de la salida del tren espreso.

El establecimiento Blandengues es celebre por sus crias finas y aunque nunca ha presentado sus productos en los remates que se dan en la ciudad.

Todos los criadores de la Republica saben que alli no se han encomizado dinero, ni se han ahorrado gastos para estar a la vanguardia de los primeros establecimientos del pais, y asi es que desde muchos años atras se han introducido alli los mejores animales que se necesitaban para el refinamiento de las razas tanto lanar como caballar, vegurizo y vacuno de todo lo cual hay animales especiales, ya sean puros como mestizos.

Las especies que existen en 'Blandengues' se componen de majadas, tipos de cabaña en ovejas y padres puros Rambouillet de la Cabaña Imperial, hoy Nacional de Francia, majadas Lincoln servidas por carneros puros importados directamente de Europa, majadas finas Rambouillet, yeguas puras Normandas, yeguas para sangre de carrera importadas de Inglaterra. En esta raza (la yegnasiza) hay animales notables y de gran merito, de distintas razas, servidas por magnificos padrillos puros introducidos directamente de Europa y lo mejor que ha venido al pais.

En el ganado vacuno mestizo hay animales de mucho merito, y en cuanto a lo puro, hay vacas, vaquillonas y toros de la raza Durham que estamos seguros no dejaran nada que desear. Al anticipar este aviso a los senores hacendados tanto de esta Republica como de la Oriental e Imperio del Brazil, lo hacemos con el objeto de que se vengan preparando para este ramade que podemos reputar como el mas importante que se ha dado hasta hoy entre nosotros de ganados finos de todas las especies.

Hoy que esta demostrado de una manera evidente que la riqueza de nuestra tierra consiste en la ganaderia, y que cuanto mas nos dediquemos a su refinamiento, tanto mas aumenta la riqueza publica y privada por el valor que toman las especies y los campos, nos parece oportuno llamar la atencion de los Sres. Hacendados, para que con tiempo se preparen a adquirir animales finos de toda especie nacidos en el pais e importados directamente, ya aclimatados y que no se ofrecen todos los dias en venta.
